MAN AND HIS WIFE THROWS PROM A BUGGY man named Brown, who resides on Third-reet, near Race, while driving down Cenral-avenue, yesterday afternoon, in a buggy, with his wife, was thrown from the vehicle and severely injured. He was making an affort to leave the street railway track, and effort to leave the street ranks, the buggy was driving quite rapidly when the buggy upset. Both the parties fell heavily upon the passment, the wife fracturing upset. Both the parties fell heavily upon the bowldered pavement, the wife fracturing her left arm and otherwise severely injuring herself, while the man escaped with a severe contusion of the head and some slight bruises

From the weekly report of the Mayor's Clerk we learn that the receipts for licenses for the week ending yesterday amounted to \$13 50, derived from the following sources:

The amount paid into the treasury, however, during the week, was only \$12 50, in consequence of the fact that the Clerk overpaid the receipts on the 7th of February to the amount of one dollar.

Busilary in the Seventeenth Ward.—
The residence of a man named Samuel H.
Boggs, located some place in the Seventeenth
Ward, was feloniously entered a day or two
ago, and robbed of money to the amount of
\$35 and two notes, one drawn by Joseph Hays
for \$103.05, and the other by John T. Carman
for \$132.25. The burglars effected an entrance by climbing into the second story window from a shed in the rear of the building,
and found their booty in a porte-monnaic
taken from the pocket of a pair of puntaloons
belonging to one of the immates of the room.
No opportunity occurred to mar the harmony
of the transaction, and it is quite possible the
secondrels will never be detected.

BOARD OF CITY IMPROVEMENTS.—At the egglar semi-weekly meeting of the Board of City Improvements, held yesterday morning, he Clerk was instructed to prepare and transmit to the City Council an ordinance to assess a special tax on the real estate bounding and abutting on John-street from Hopkins to Clinton, to pay for paving the side walks on the said street. PROCEEDINGS OF THE COUNTY COMMISSION PROCEEDINGS OF THE COUNTY COMMISSION-ERS.—At their regular daily session, held yes-terday morning, the County Commissioners passed orders amounting in the aggregate to \$546 20, of which \$425 60 were paid for labor on the new jail, \$37 95 to Burkhardt & Co., for lard-oil for Carthage Lunatic Asylum, \$36,20 to steamer War Eagle, for freight on wire-work for same institution, and \$36 45 to Adans & Co., for transportation of ten bundles of wire grates.

to Adams & Co., for transportation of ten bundles of wire grates.

A recommendation was received from the Trustees of Springfield Township, to the effect that two culverts should be built on the road leading from the Carthage Turnpike to Lockland; also, that a bridge be built on the old Hamilton Road across Millereek, a short distance west of Lockland, both of which were referred to the County Engineer, with instructions to examine and report. No other business worthy of note was transacted.

ble excitement was created on Third-street restricted yesterday morning by a rumor to the effect that the Bank-building, on the corner of Third and Main, was momentarily expected to fall. Many of the occupants of the upper stories of the house instantly removed to other localities, but it is quite likely that they had little force that force

It is asserted that the building has been setfling for some time, and that the walls are cracked in several places to a considerable extent. What the truth is in regard to the matter it is difficult to ascertain; but we are inclined to the opinion that the memory of the late Sycamore-street tragedy made the alarm greater than it would otherwise have

A thorough examination of the building, by competent engineers, would detect the danger, if any exists, and, if there is none, would give the tenants a confidence in its safet; and durability, which never can be obtained in any other way, and we hope such an investi-gation may be speedily instituted.

Serious Accident—Man Nearly Killed by a Fall from a Wagox.—A man named William Barwise was quite seriously injured at the corner of Eighth and Central-avenue yesterday afternoon, in the following manner. He was driving a furniture car loaded with baled hay, and was sitting on one of the bales, when, by some accident, he fell backward, striking his head upon the bowldered pavement, while a package of hay, weighing about a hundred and fifty pounds, fell upon and almost crushed him to death. He was carried into the drug-store of Albert Ross, and the Coroner sent for, under the impression that he had been killed; but, when Dr. Carey arrived, he had returned to consciousness and was suffering severely from his injuries. His wounds were immediately attended to, after which he was removed to his residence on Baymiller-street; but from the residence on Baymiller-street, but from the circumstances, it is thought he can not sur-vive. The fracture of his skull is quite a scrious one, and his internal injuries are such as to render his ultimate recovery a matter of

MEETING OF THE MECHANICS' INSTITUTE,—
Quite a large meeting of the members of the
Mechanics' Institute was held last evening at
their hall, on the corner of Sixth and Vine,
to consider the propriety of holding an Exhibition during the present year. A resolution had been offered at a previous meeting to
the effect that the Annual Fair of the Society
be postponed in consequence of the anticipated Exhibition of the United States Agricultural Society, which will probably be held
at or near Cincinnati.

Some of the members seemed to fear that
the two exhibitions would interfere with each
other, as they would be held at the same time,
and to avoid this, and at the same time offer a
larger inducement to the National Society to

and to avoid this, and at the same time offer a larger inducement to the National Society to come to this city, this proposition was made. It was discussed at some length, pending which, the meeting adjourned until last night. President Wilstach occupied the Chair, and stated the object of the meeting. Messrs. Wilstach, (Mr. Smith coupying the Chair) Wiltace, Caldwell, Latta and others took part wittsee, Caidwell, Latta and others took part in the discussion, which continued until a late bour. After the matter had been fully canvassed, at least verbally, a substitute, offered by Mr. Caidwell, to the effect that the Society hold an Exhibition in accordance with its custom, was carried by an almost unanimous vote, there being but one voice in the negative.

Mr. Caldwell then moved that a committee Mr. Caldwell then moved that a committee of thirteen be appointed to make the neces-sary arrangements for the annual Exhibition; and after the President had been authorized to name the members of the Committee, the meeting adjourned.

HORRIBLE OUTRAGE UPON A YOUNG WO-HORRIBLE OUTRAGE UPON A YOUNG WOMAN—ROREMY AND CONSTRUMENTON—On Treasday of last week, a young woman, twenty-three years of age, arrived in the city by the Cincinnati, Hamilton and Dayton Railroad, from Greensburg, Indiana, and was met at the depot by the driver of an Express wagon, who agreed to carry her to the residence of her friends on Glark-street. She took a sast in the vehicle, but the driver invited a couple of men to accompany them, and they drove of men to accompany them, and they drove up the Detr Creek Valley. When they had reached a secluded spot they took the girl from the wagon and the entire party not only

from the wagon and the entire party not only violated her person in the most disgusting and outrageous manner, but also robbed her of eleven dollars, all the money she had in the world, and then left her, bruised, bleeding and unconscious, upon the ground.

How long she lay there she does not know, but finally recovering sufficiently to walk, she wandered about until at length she found some persons, who directed her to the home of her friends, where she arrived late in the evening, half dead with the suffering she had been compelled to undergo from this trio of Torquins—"more than demons and less than forquins—"more than demons and less than

transaction.

Last evening the girl visited the station and identified him as one of the men; and was so positive in regard to it that there seems to be little doubt of the fact that he is one of the parties who outriged her person.

We heartly hope the others may be discovered and brought to the punishment they so much deserve; for death, although a kindness to the girl, compared to so fiend-like an act, would be much too lenient a sentence for those who could be guilty of taking a part

STRIKE AMONG THE DRIVERS ON THE PASSEN-BER STREET RAILWAY.—The drivers on the Passenger Street Railway were informed yes-erday that hereafter their salaries would be terday that hereafter their sataries would be reduced from \$1.50 to \$1.25 per day. In connection with this, and for the purpose of still further reducing their expenses, the directors of the road have concluded to reduce the number of their employes.

Heretofore they have had three drivers and conductors for two cars, which run from six colock partitles for two cars, which run from six colock partitles for two cars.

conductors for two cars, which run from six o'clock until half past eleven; now they propose not only to reduce the pay of these men, but to have but one driver for each car, thus keeping the men on duty eighteen hours out of twenty-four. This the drivers refused to submit to, and forthwith left their positions in a body.

Some difficulty occurred yesterday in consequence of this action, and the conductors were obliged to drive their own cars as well as collect the fare. One or two persons who were found to be capable of accepting the rates that were offered under the circumstances, were hurled indignantly from the cars by the outraged comployes. We have been informed that the same rule will take effect on the City Passenger Street Railway.

been informed that the same rule will take effect on the City Passenger Street Railway, and, we presume, with a like result.

The payment seems to us too small as it was, for the length of time the drivers are compelled to remain on duty, and we suggest to the Directors the propriety of exercising a small proportion of generosity, at least to those who are in their employ.

MEETING OF THE YOUNG MEN'S NATIONAL REPUBLICAN ASSOCIATION.—The Association net at the usual hour, President Hassaurek n the chair.

Mr. Jordan offered a resolution which provided that the City Opposition Executive Committee be requested to call a Convention to nominate candidates for the April election. Mr. Elliott offered a substitute, to the effect that any Convention was inexpedient, and that candidates for city officers be requested to announce themselves, and run inde-

By common consent other propositions were allowed to be introduced, when Mr. Lathrop suggested that a City Republican Convention be held, and to give this latter resolution some definite form, an amendment was offered by Mr. Mullett, authorizing the Chair to appoint a committee of five to make the necessary preparations for the proposed Convention.

The resolution of Mr. Elliott, and the amendment of Mr. Mullet, were withdrawn, and the others defeated by a small majority, when the Association adjourned, without having accomplished a particle of business.

MEETING OF THE ST. XAVIER RELIEF COM-MITTEE.—The different Committees of two from each ward in the city, met yesterday afternoon, at the Merchanis' Exchange, for the purpose of making reports to the Finance Committee. It was expected that this would be a final meeting, but as it was not complete, and there were wards not entirely prepared to report, it was thought best to have another; at which the Finance Committee hope to be able to finish its labors.

FIRE LAST NIGHT—Loss \$25,000.—About twelve o'clock last night a fire broke out in the residence of Thomas Straight, located on Mt. Auburn, in First-avenue, and near the head of Sycamore-street. The building was a large five-story brick, occupied by Mr. S., together with W. B. Hollister. How the fire originated we could not learn, but before the Fire Department reached the ground the flames had extended to every part of the house, and both it and the contents were in ruins. Nothing, so far as we could ascertain, was sayed from the general conflagration, and the loss, although in consequence of the lateness of the hour and the distance, we have been unable to ascertain anything defi-nite in regard to it, will not certainly be less than \$25,000.

Man Thrown from a House and Severelly Injured.—Constable White, of the Second Ward, was thrown from his horse, a few days ago, at the corner of Fourth and Sycamore, and so severely injured, that, until yesterday, he was confined to his hed. His wounds were principally on the head and face, and were of such a nature as to render him delirious for several days. He is now, however, able to leave his room, with every prospect of a speedy recovery.

Pixe's Opera-House.—The large audience at the Opera-house last evening were highly pleased with Mrs. Waller's personation of "Meg Merriller," which, though a fine and highly artistic performance, could not be ranked with Charlotte Cushman's transcendently great performance of the same character. Anary from "Mog, 2 there is little in the musical drains, as it is tailed, to awake interest or protong the attention, and therefore the other parts are hardly worth mention.

Supposed Relic of the Murrell Gang.
Two hunters, named Porch and Cell, the former from this city, and the latter from Cincinnati, recently discovered a small tin box, while hunting on the hills near Ludlow, which had evidently been buried there by some robbers connected with the Murrell gang, once so famous as the terror of the Mississippi Valley. In a communication to the Kenton County Democrat, the discoveres thus describe the contents of the box:

"On opening the box they found a package enveloped in a Cincinnati Gasette, of September 8, 1837, tied well with a dark string. The contents of this package consisted of three letters, or documents, in cypher, four transfers, or conveyances of property, (though all disconnected,) a pair of hady's half-worn dark kid gloves, a pair of line gold spectacles, a small oval gold plate, or charm, with various devices engraved thereon, among which was a hand holding a dagger, with the point down, and a flame issuing from the handle, with the letters S. O. W. I. K., arranged in a circle; also, a slip of dingy, discolored paper, with the following written upon it:

um of \$400, for his appearance at the Circuit Court.
The trees had been dug up last fall, bunched, and their roots inserted in the ground, to keep them alive till spring, and they were thus placed when taken away. A nice legal question—whether the act was theft or trespass—was raised, but the Mayor decided it to be the former. Had the trees been dug up from their original place, it would have been trespass merely.

NEWPORT NEWS.

Boy Severely Bitters by a Dog.—Considerable excitement was created, yesterday morning, near the corner of Saratoga and Mayo-streets, by a dog, which was supposed to be auffering from an attack of hydrophobia. It attacked and severely lacerated a small boy, the son of Mr. John Lender, and would have accomplished other mischief, if it had not been killed on the spot.

Letter from Hon. Edward Bates.
St. Louis, March 20.—Hon. Edward Bates has addressed a letter to the Missouri delegates to the Charleston Convention, in reply to interrogatories propounded to him by them. It will appear in to-morrow's Democrat. The main points are as follows:

He has no new opinions on the subject of the extension of slavery, and none formed with reference to the present array of parties. He is coeval with the Missouri question of 1820. He formed his opinions then, and has not changed them since.

At the time of the Revolution, and long after, slavery was regarded as an evil, temporary in its nature, and likely to disappear in the course of time; yet, while it continued, it was a misfortune to the country, socially and politically.

Shavery is a social relation, a domentic institution. It exists by local law; the Federal

stirution. It exists by local law; the Federal Government has no control over it in the States.

The Territories are subject and subordinate, not supreme like the States. The nation is supreme over them. He is opposed to the extension of alavery, and in his opinion the spirit and policy of the Government ought to be against its extension. The Constitution does not carry slavery into the Territories, nor anywhere. It only acts upon it where it is established by local law. The Dred Scott case only decides that Scott was not a citizen. The opinions of the Judges, beyond this, are extra-judicial and of no authority. The questions discussed by them were political, not within their cognizance, and belong to and could be disposed of only by the political departments. The discussion was most unfortunate, as it produced a dangerous conflict between the co-ordinate branches of the Government.

He favors the colonization of the free blacks to the American tropics, the Homestead Bill and the immediate admission of Kansas; perfect equality of rights among citizens, and the construction of a Pacific Railroad under the ampices of the government. He is gratified that his name has only been used in a spirit of harmony and peace, and to prevent division and controversy among those who ought to be united. He has neither sought nor held any political office for twenty-five years, and is satisfied with the honors already paid him by the public. them.
